98	Hula Hula	33	Hebrew (heb)
99	Israeli Jews	33	Hebrew (heb)

- Six UPGs are listed twice because two languages are spoken within the UPG (see 19, 38, 41, 63, 68, & 81).
- UPGs 1 – 89 were selected in the original selection process documented in the 2017 UPG book.
- Two greyed UPGs (76 & 82) were removed with the 2019 update of the UPG book when field research indicated that the associated language (11) did not fit SRG selection criteria. (Language 27 was also removed, however the associated UPG was moved to language 1.)
- Also, with the 2019 update, three UPGs were removed because they were found to be alternate names for another UPG. Yemeni Arabs (89) merged with Southern Yemeni Arabs (78), Ishelhayn (39) merged with Ishelhayn Berber (40), and Northern Yemeni (61) merged with Northern Yemeni Arabs (62).
- UPGs 90 – 95 were added in 2019 as a result of the expansion of SRG's work into Pakistan and the addition of languages 28 - 31.
- UPG 96 was added in 2020, during supplemental project due diligence, as a result of field research pertaining to Southern Pashto (language 30).
- UPGs 97 – 99 were added when Hebrew (language 33) was added in 2019 at the request of Labib Madinat in discussion with SRG.
- The current, net number of UPGs is 94.
